

Fall Away

Eleni Mandell

Wouldn't it be wonderful
The night was made of gold
We'd stay up late and drive around
Nowhere else to go

Hey look at me
I'm all dressed up
I'm hot enough to blow
I'm where it's at
And everybody wants to take me home

Fall away
Fall away from this world
Fall away where we can be alone

Wouldn't it be wonderful
The day was silver rain
We'd leave our coats and catch our colds
Dripping in the silver dollars

Fall away
Fall away from this world
Fall away where we can be alone

Look at me
I'm everything
The sun, the moon, the stars
I'm razor sharp
I'm burning up
Setting off the fire alarms

Fall away
Fall away from this world
Fall away where we can be alone

Fall away
Fall away from this world
Fall away where we can be alone

We can be alone
