

# Rockstar

Elephant Kind

Pack 'er up, we're moving to Bali  
I wanna feel all the spark (spark spark spark spark)  
I never meant to live in the city  
I like to be in the dark

I'm just a living rockstar  
Without the money and the fame  
I'm just a living rockstar (rockstar rockstar)  
Without the money and the fame

In the morning I feel spiritual  
I found God by the shore  
By the night I spin two turn tables  
I get turnt on the floor

I'm just a living rockstar (rockstar rockstar)  
Without the money and the fame  
I'm just a living rockstar (rockstar rockstar, yeah)  
Without the money and the fame

Staring at the night  
As the same blue sky  
Except it's superblue  
When my eyes are dry  
I left home to learn  
I live the same life in a different place

Pack 'er up, we're moving to Bali  
I wanna feel all the spark (spark spark spark spark)  
I never meant to live in the city  
I like to be in the dark  
I'm just a living...
