

## Sour

Elephant Kind

Careful of what you wish, darlin'  
Don't get distracted by feelings  
In love for what?  
If it's always too much  
Moan like you mean it, darlin'  
There's not much left in me, bethink  
In love for what?  
If it's always too much

In love for what?  
If it's always too much

(We'll never get to where we were)  
(It's too beautiful to return)  
(I have no self control)  
(I have no self control)  
(I have no self control)

I can see through you, darlin'  
Nothing will see you through  
In love for what?  
If it's always too much  
We will remain in memory  
It's all that we can be  
In love for what?  
If it's always too much

In love for what?  
If it's always too much
