

The New Dog

Elephant Kind

Everybody's asking everyone who the fuck is this
Motherfucker
And I only know one thing, neither do I know
Any of you
Hey, I don't give a lot of shit
Even if you're a superstar
Man, I've been to many places
But today I realized

That I'm a new dog
I found myself in peace in times of trouble
You cannot fuck around with the new dog
I found myself in peace in times of trouble
I won't let you fuck around with me

Don't wanna deal with it (oh na na)
The people and all (the drama)
Don't know what happened in the past
Don't even wanna know (Don't even wanna know)
Well I don't wanna know
I'm not on anyone's side
I'm on my own
'Cause baby I am

The new dog
I found myself in peace in times of trouble
You cannot fuck around with the new dog
I found myself in peace in times of trouble
I won't let you fuck around with me

So let me find myself again
It's been a hard time
I don't know how
I've been coping with mine
If I could ask one question
Lord, do I belong here?
Do I belong?

Dog
I found myself in peace in times of trouble
You cannot fuck around with the new dog
I found myself in peace in times of trouble
I won't let you fuck around with me
New dog
I found myself in peace in times of trouble
You cannot fuck around with the new dog
I found myself in peace in times of trouble
I won't let you fuck around with me

Oh never let them fuck around with me
No no, nah nah
No no, ooh
Fuck around with me
