## Elephant Man

Yea though I walk through the Valley of Death  
Nuh haffi worry, we nuh haffi fret  
When the heathen a draw you out, your faith dem waan test  
You nuh haffi worry 'cause you're God bless  
Then we read Psalms 23  
It says, "Goodness and mercy shall follow me"  
Nah go make dem make we live inna stress  
You nuh haffi worry 'cause you're God bless

All who a dig hole fi we go down to zero  
Tell dem go dig one fi that man inna the mirror  
Jah plead we case, anuh Cochran or Shapiro  
Burn out the heathens with we Bible like Nero  
Dem carry news to Leftside 'bout Dr. Evil  
Why people badmind so? I don't know  
Jah by we side, you never see we go down  
Find out dem heart no clean, leave dem alone  
Waan pop you down true dem see you a reach far  
No waan see you strive nor reach fi your goal  
We nah stop, badmind better move up  
We already know how fi dem ting go

Yea though I walk through the Valley of Death  
Nuh haffi worry, we nuh haffi fret  
When the heathen a draw you out, your faith dem waan test  
You nuh haffi worry 'cause you're God bless

Revelation reveals those badmind people  
Who see we do good and a reward we evil  
Even 40 camel coulda go through the eye of a needle  
Then fi see we wish go true fi we go crash inna vehicle  
For all those who never believed in me  
Say dem a mi friend and deceiving me  
The only time dem see the need in me...  
Is when dem need something off of the feeding tree  
Well!  
We pray fi all of who weh say dem no like us  
Nah go see Jah face if unuh no righteous  
Read from Timothy go down to Titus  
Inna Father God weh me put my trust
