

## Shadows Passed

Elephant Revival

If you say, "leave me far behind," then  
I won't bother you no more  
Won't bother  
I won't bother no more

Dry your eyes, look inside  
May we find this vital, vital plane  
Bleary eyed, you're wondering why  
Do we deny the sun called the shadows to life

Tell me your shadow  
Past can change  
Love does exist  
We insist  
As is, as is, as is

I've seen the road  
And where it's straight  
All washed away in the rain  
Washed away, away in the rain

Dry your eyes, look inside  
May we find this vital, vital plane  
Bleary eyed, you're wondering why  
Do we deny the sun called the shadows to life

Maybe I'll find you open handed  
Intertwined, your dream in mine  
Knowing love, knowing love  
Love
