

Closer

Elephante

Don't know if you want me
We can chance if it's feeling right
I'll love you if you love me
We can take it to the end of time

You shocked the pain like novocaine
We'll ride the waves inside
You know it's true
This love for you inside

Why don't we get closer?
Don't stop, let's get closer
Why don't we get closer?
Don't stop, let's get closer
Get closer

Don't know if you want me
We can chance if it's feeling right
I'll love you if you love me
We can take it to the end of time

You shocked the pain like novocaine
We'll ride the waves inside
You know it's true
This love for you inside

Why don't we get closer?
Don't stop, let's get closer
Why don't we get closer?
Don't stop, let's get closer
Get closer (get closer)
(Don't stop, let's get closer)
Get closer
Get closer
