

Don't Turn Back

Elephante

Breathe deep, let it go
This feeling, is it chemical?
I lean in but I'll never know

Did we go too far or not far enough
Shot for the stars but got burned by the sun
Maybe this love is just pushing our luck

Standing on the edge just
Don't look down
Tell me can you hear me?
I'm calling out
It's hard to be brave when I'm fallin'
And double when I'm being honest
I know you're scared to hit the ground
Promise me we won't turn back now

Don't turn, don't turn
Don't, don't turn back now
Don't turn, don't turn
Promise me we won't turn back now
Don't turn, don't turn
Don't, don't turn back now
Don't turn, don't turn
Promise me we won't turn back now

Promise me we won't turn back now

Don't turn, don't turn
Don't, don't turn back now
Don't turn, don't turn
Promise me we won't turn back now

Climb high to the pinnacle
With the same dreams, dressed in new clothes
Push through the haze
We're getting close

Somehow I know that we're not far enough
Break through the clouds and we'll bask in the sun
Maybe this love is 'bout more than just luck

Standing on the edge just
Don't look down
Tell me can you hear me?
I'm calling out
It's hard to be brave when I'm fallin'
And double when I'm being honest
I know you're scared to hit the ground
Promise me we won't turn back now

Don't turn, don't turn
Don't, don't turn back now
Don't turn, don't turn
Promise me we won't turn back now
We won't turn back now

Promise me we won't turn back now

Don't turn, don't turn

Don't, don't turn back now

Don't turn, don't turn

Promise me we won't turn back now

Don't turn, don't turn

Don't, don't turn back now

Don't turn, don't turn

Promise me we won't turn back now

Promise me we won't turn back now
