

# Down This Road

Elephante

Another paper cut  
From planting roses in concrete  
We go from breaking up  
To making love in the front seat

By now, we should know better  
But then you get too close

If we go down this road  
In this old hatchback  
We can't turn back anymore  
'Cause I wanna know

If we go down this road  
Running way too fast  
We fade to black, but we don't  
Do it alone  
If we go down this road

If we go, we go  
If we go down this road  
If we go, we go  
If we go down this road

Another masquerade  
Are we in love or in costume?  
Now we're face to face  
Making love in the coat room, ooh oh-oh

If we go down this road  
In this old hatchback  
We can't turn back anymore  
'Cause I wanna know

If we go down this road  
Running way too fast  
We fade to black, but we don't  
Do it alone  
If we go down this road

If we go, we go  
If we go down this road  
If we go down this road  
If we go, we go  
If we go down this road

If we go down this road  
Running way too fast  
We fade to black, but we don't  
Do it alone  
If we go down this road
