

Forever Weather

Elephante

Dark nights and darker days
Grey skies, always in the shade
Lately the waters are rough
And I've been through my ups and downs
Floating between floods and droughts
But I swear I'm not giving up

When it's pouring rain
I'll always stay the same

When I say I love you
It's not just a phase
No matter the weather
Its for forever
Time will pass and seasons change
But we will never fade
No matter the weather
Its for forever

Hurricanes and howling wind
You held my hand through thick and thin
God knows where I'd be without you

So I'll stay always by your side
I don't need the sun to rise
Cuz you got enough shine for us both

When it's pouring rain
I'll always stay the same

When I say I love you
It's not just a phase
No matter the weather
Its for forever
Time will pass and seasons change
But we will never fade
No matter the weather
Its for forever
