Goliath

Elephante

Born a fighter, not afraid of war
Not gonna back down, from what I'm fighting for
Roll my sleeves up, get out my skin and guns
'Cause I don't give a fu-

I can be brave, admit to my mistakes
I will carry you, when you're here always
When you cut deep, there's nothing I can do
Get on my knees and pray

Thought I was a giant
But you make me feel so small
Thought I was a giant
But you make me feel so small

You bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath

Born a warrior, with my sword and shield
But you cut me down, on the battle field
I plant my white flag, and [?]
There's nothing I can do
Get on my knees and pray

Thought I was a giant
But you make me feel so small
Thought I was a giant
But you make me feel so small

You bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath
Down back goliath
Bring me down back goliath

You bring me down back goliath

Thought I was a giant
Thought I was a giant
Thought I was a giant
You bring me down back goliath
You bring me down back goliath

(You bring me down)
(Yeah)
