

Temporary Love

Elephante

Come with me
I see it in your eyes
Don't you try to fight it
Read my signs
The sun's about to rise
Let's go wild in the moonlight

Chances come and go
So choose to follow
We may never know
So forget tomorrow

And I know
It's just temporary
Temporary love

And I know
It's just temporary
Temporary love

And I know
It's just temporary
Temporary love

Run with me
Open up your mind
Don't you try to hide it
Living free
If only for a night
It will feel like a life time

Chances come and go
So choose to follow
We may never know
So forget tomorrow

And I know
It's just temporary
Temporary love

And I know
It's just temporary
Temporary love

I know
It's just temporary
Temporary love

I know
It's just temporary
Temporary love

I know
It's just temporary
Temporary love
