

The In Between

Elephante

I've been a million places
Led a thousand lives
And I don't wanna take it
But that sounds so nice
And I wonder where you've been
Who you let decide
Are you satisfied?

And you know I don't need ya, need ya
But if you need me, let me know
I don't need you to be here, be here
But if you want me, let it show
These days gettin' darker, darker
These nights gettin' longer, longer
No, you know I don't need ya, need ya
But if you need me, let me know

We got complacent
I got tired of tryin'
And the rules kept changin'
We got stuck inside
And you get so passive aggressive
And I'd say some shit I regretted
We built up our walls just to burn 'em down

And you know I don't need ya, need ya
But if you need me, let me know
I don't need you to be here, be here
But if you want me, let it show
These days gettin' darker, darker
These nights gettin' longer, longer
No, you know I don't need ya, need ya, need ya
But if you need me, let me know

And you know I don't need ya, need ya
But if you need me, let me know
I don't need you to be here, be here
But if you want me, let it show
These days gettin' darker, darker
These nights gettin' longer, longer
No, you know I don't need ya, need ya, need ya
But if you need me, let me know

These days gettin' darker, darker
These nights gettin' longer, longer
Now you know I don't need ya, need ya, need ya
But if you need me, let me know
