

## Back Then

## Elevation Worship

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

Now I just lean on the Rock  
I been tryna get right  
Weight on me heavy, I look to the light  
Been in the trenches, I thought I would die  
If you know me then you know how I was  
Went all around, I was looking for love  
Went through the Ls just to get to the dubs  
Only get that if I look up above

World tryna hold me down, gotta run away  
Far from the fame, yeah, I'm tryna dodge LA  
Gotta get back to the Lord  
Went from the rags to the top  
Like He raised Lazarus up  
Yeah, I been raising the stocks, let's go

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

Why, why, why, why, why  
Should I waste all my time?  
Losing my mind  
Believe all their lies

Why, why, why, why, why  
Would I try to rewind?  
I just hit my prime  
I just hit my stride

I remember back when  
I remember back then  
I was bad Mike Jackson  
Then God came and tapped in

I can never go back then  
I can never go back then  
I can never go back then  
I can never go back then

I cannot repeat  
Saving up for the Yeezys  
Problems looking like 3D  
Wishing life would be easy  
But living ain't easy  
Used to be a rookie left D league  
John Cena can't see me

Ask anybody who knew who I was  
Feet on the ground but my head in the clouds  
Losing my way, didn't know who to trust  
That's when He touched down and gave me His love  
Thank God He showed me who He really was  
And I know He wasn't hiding in the clouds  
Chasing me down, ninety-nine for the one  
Son of a King, royalty's in my blood

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

Hey  
I can't hear you  
Hey  
Little louder  
One, two, three, four  
Let's go  
Hey  
Let's go  
Hey  
Let's go  
Let's go

I remember back when  
I remember back then  
I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Never go back then  
Never go back then

I remember back when  
I remember back then

I was bad Mike Jackson  
That's when God came and tapped in  
I can never go back then  
Never go back then  
Can never go back, can never go back  
Can never go back, can never go back then
