

I don't have to sing it like an angel
I can come to You with confidence
It's easier than I've made it

We don't have to act like perfect people
To get an invitation to Your table
It's easier than we've made it
So much easier than we've made it

All that You want
Is my attention, God, if that is my cost
You can have my forever, I'll keep finding
A billion ways to show You
A billion ways to show You
Ju-just how much I love You

I could turn my car into an altar
We could turn this room into a church
It's easier than we've made it

And I won't save my worship for a Sunday
'Cause life with You is more than just a song
It's easier than we've made it
So much easier than we've made it

All that You want
Is my attention, God, if that is my cost
You can have my forever, I'll keep finding
A billion ways to show You
A billion ways to show You
Ju-just how much I love You

All that You want
Is my attention, God, if that is my cost
You can have my forever, I'll keep finding
A billion ways to show You
A billion ways to show You
Just how much I love You

Just how much I love You
I'll find a billion ways to show You
A billion ways to show You
Just how much I love You
