

# Make A Way

Elevation Worship

Oh  
When there is no way  
You're gonna make a way  
We've seen You do it before  
We know You're gonna do it again, yeah

I know You'll come through  
This mountain is moving  
I fix my eyes on You  
If You said it You'll do it

Because You are God  
No matter the odds  
The outcome is always the same  
The words on the pages  
The promise You made us  
You still have the final say

You will make a way  
You always make a way, oh  
You will make a way  
You always make a way

And I won't fear tomorrow  
'Cause You're already in it, hey  
My hope and my future is already written, hey

Because You are God  
No matter the odds  
The outcome is always the same  
The words on the pages  
The promise You made us  
You still have the final say

You will make a way  
You always make a way  
You will make a way  
You always make a way  
You will make a way  
You always make a way  
You will make a way  
You always make a way

Oh, You're doing it, You're doing it  
We've seen You do it before  
You're gonna do it again  
Do it again  
You're still making ways

'Cause nothing's too hard for You  
Impossible's what You do  
And I know You've got this too  
Impossible's what You do, aye

And nothing's too hard for You  
Impossible's what You do  
I know

I know You've got this too  
Impossible's what You do

Nothing's too hard no

Nothing's too hard for You  
Impossible's what You do  
Oh, I don't see it  
I know You've got this too  
Impossible's what You do

Nothing's too hard for You  
Impossible's what You do  
And I know You've got this too  
Impossible's what You do

Come on

You will make a way  
You always make a way  
Come on, sing it  
You will make a way  
You always make a way  
No matter what the reason  
You will make a way  
You always make a way  
We believe, we believe  
You will make a way  
You always make a way

Oh-oh-oh-oh  
Oh-oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh-oh

You will make a way  
You always make a way  
You will make a way  
You always make a way  
You will make a way  
You always make a way  
You will make a way  
You always make a way

You will make a way  
What the enemy meant for bad, He'll turn for good  
And You'll just make another way  
Still making ways  
What the enemy meant for evil, He'll turn it for good  
And You'll just make another way  
Still making ways

Your sickness is for His glory  
That trial is for His glory  
He's still making ways  
Still making ways

It's not something we just read about, but He's still making ways  
It's not just something we've heard about, but He's still making ways

It's not just something I've heard preached about, but He's still making way  
s  
We've seen it in our lives

Still making ways, oh  
Come on. if you have a testimony you should testify  
Still making ways  
Come on. if you've seen Him move mountains you should testify  
Still making ways  
If you've seen Him open up door, testify  
Still making ways

Oh, He's still making ways  
Still making ways  
We've seen Him heal bodies, He's still making ways  
I've seen Him open up doors, He's still making ways  
He's still making ways  
Still making ways

So the next time you see a mountain  
You should just see another way (Another way)  
The next time you see sickness or disease  
I want you to see there's another way (Another way)

And He will make a way  
He'll always make a way  
Sing it from experience  
He will make a way  
Always make a way  
You will make a way  
You always make a way  
You've seen it over and over  
You will make a way  
You've seen it over and over  
You always make a way
