

Purify

Elevation Worship

Wash me in Your blood
In the water of Your love
Only You can baptize me

Bring me back to life
Holy Spirit Fire
Only You can baptize me

You're enough for me
You're all I need
Purify me
Only You can purify

You're enough for me
You're all I need
Purify me
Only You can purify

Wash me in Your blood
In the water of Your love
Only You can baptize me

So bring me back
Bring me back to life
Holy Spirit Fire
Only You can baptize me

You're enough for me
You're all I need
Purify me
Only You can purify

You're enough for me
You're all that I need
Purify me
Only You can purify

Hallelujah, Glory Glory
There's a party in Heaven, we're invited in
Oh, chains are breaking
Saints are praising
There's a party in Heaven, we're invited in

Hallelujah, Glory Glory
There's a party in Heaven, we're invited in
Chains are breaking
Chains are breaking
Saints are praising
Saints are praising
There's a party in Heaven and we're joining in

Hallelujah
Hallelujah
Glory Glory
There's a party in Heaven, we're invited in

Chains are breaking

Saints are praising
There's a party in Heaven and we're joining in
Yes, we're joining in

There's a party in Heaven and we're joining in
There's a party in Heaven and we're joining in
There's a party in Heaven and we're joining in
There's a party in Heaven and we're joining in

You're enough for me
You're all I need
Purify me
Only You can purify

You're enough for me
You're all that I need
Purify me
Only You can purify

You're enough for me
You're all I need
Purify me
Only You can purify
