

REALITY

Elevation Worship

I believe in You, I don't need signs and wonders
'Cause I know it's true, I can believe before I see
It's deeper than a feeling, stronger than a reason
I can believe (I can believe), I can believe before I see

My heart is fallin', can't stop it
You want my heart so You've got it
I can't resist the love You give

You are reality
The truth that I believe
Better than all my dreams
I find all I need in You
You are my guarantee
The promise I will see
Better than all my dreams
I find all I need in You

I will trust in You, I don't need proof to follow
'Cause I know it's true, I can believe before I see
It's deeper than a feeling, it's stronger than a reason
I can believe (I can believe), I can believe before I see

You are reality
The truth that I believe
Better than all my dreams
I find all I need in You
You are my guarantee
The promise I will see
Better than all my dreams
I find all I need in You
I find all I need in You

My heart is fallin', can't stop it
You want my heart so You've got it
I can't resist the love You give
I find all I need in You

You are reality
The truth that I believe
Better than all my dreams
I find all I need in You
You are my guarantee
The promise I will see
Better than all my dreams
I find all I need in You
You are reality
The truth that I believe
Better than all my dreams
I find all I need in You
You are my guarantee
The promise I will see
Better than all my dreams
I find all I need in You
