

## All My Friends

Eleven

Who's there to knock me down?  
All my friends  
Who's there to lift me up?  
All my friends  
All my friends are naked owls  
They take the silence and make it loud

I would never make it out of the shadow  
I would never know I'm not myself today  
I could never hold the world on my shoulders  
I could never be the one that gives a f\*\*k everyday

Who's there to shut me up?  
All my friends  
Who's there to hear me out?  
All my friends  
All my friends are naked owls  
They take the silence and make it loud

I would never make it out of the shadow  
I would never know I'm not myself today  
I could never hold the world on my shoulders  
I would never know I'd missed the point along the way  
I could never see the hope in the sadness  
I could never be the one that gives a f\*\*k everyday
