

# All Together

Eleven

Yesterday brought us here  
And for better or for worse we inherit the seed  
But the message is clear we can make it happen  
If we let the music be free  
Got to groove it harder  
Got to say it louder  
Rock the music  
Rock the music  
Got to wear the flower  
Got to feel the power  
Rock the music  
Rock the music  
All together  
All as one  
Like the sun.  
Turn the night into day  
There is money in chains  
Making choices for the rest of us is good for the few  
But the air needs a change  
And the spirit of creation is the motion we chose  
Got to groove it harder  
Got to say it louder  
Rock the music  
Rock the music  
Got to wear the flower  
Got to feel the power  
Rock the music  
Rock the music  
All together A  
ll as one  
Like the sun.  
Turn the night into day
