

Awful Lot

Eleven

I want you out of here
I don't care if it's fear
You don't move. You don't shake
And my ears are hoping for a little break
You think that it's cool
When you groan and you drool
I don't care if it's good
'Cause my pride is beaten senseless when I'm booed
Awful lot of walls have blocked our way
Awful lot of tears but we still played
They held us by the leash but you did fly
Maybe it's time we say good-bye
Awful lot of fools that could not see
Awful lot of deaf wouldn't let it be
I can't believe it's over but we did try
Maybe it's time we say good-bye
Say good-bye
Sending the man away. I'm letting the train go bye-bye
Watching him through the glass I see him go high. Bye-bye
Somehow I crack a smile when people go buy, buy. Bye-bye
Somehow I know that I'll be given the chance
Awful lot of walls have blocked our way
Awful lot of tears but we still played
They held us by the leash but you did fly
Maybe it's time we say good-bye
Awful lot of fools that could not see
Awful lot of deaf wouldn't let it be
I can't believe it's over but we did try
Maybe it's time we say good-bye
Say good-bye
