

Had a great reputation but I ruined it  
Homeschool denim outgrew the fit  
Might be just a Carolina kid but I got a full wit  
Not a farmer I ain't shoveling nobody's bullshit  
Where my girls at? What my guys say?  
Throw your hands up but watch the fan blades  
Karaoke battlecats make it rattle all night like  
Garth Brooks came to level up your night life

They call me Red Cup, cause I'm solo  
Going full metal nerd on some Chad in a polo  
Takin' up my downtown areas in slo-mo  
This ain't the ocean bother why y'all got a showboat?  
Hold up, y'all should know though  
I hadouken like Street Fighter 2 Turbo  
Find your Zen, find your inner slow globe  
But you got a lot to lose if you choose to be a bro though

Would you care to join my following?  
No sir, I... do not follow

Out here like Bagheera and a mancub  
Lips zipped like the first rule of Fight Club  
Just a champion made out of Mighty Duck stuff  
If you're bored with a Gryffindor, come cuddle with a Hufflepuff  
Hulk smash on an air horn  
Y'all are catching me in rare form  
Cause if I'm piloting the virus then we're going airborne  
REO Speedwagon I'm crashing through your door on a unicorn
