

Dizzy baby raisin' hell
Ending back at that apartment that you call a prison cell
She says lately I can't tell
If I love the anonymity or just the painted shell

Change of scenery and personnel
We'll be back after these messages and chintzy zinfandel
Kiss me quietly or kiss and tell
But if I catch you glimpsing into me I'll end it all myself

Nobody knows me like that but I wish you did
Forget the car, turn my heart around instead baby
Nobody knows me like that but what if you did?
What if you did?

Dizzy baby terrified
That she blew her 20s waiting for her 20s to arrive
She said chase me, race the tide
I don't know what the hell I'm running from but love the exercise

Oh I've been living every night
Like tomorrow isn't coming now it must have passed me by
Would you take me for a drive
If I told you I would push you out when we hit 55 oh baby?

Nobody knows me like that but I wish you did
Forget the car, turn my heart around instead baby
Nobody knows me like that but what if you did?
What if you did?

Nobody knows me like that but I wish you did
Forget the car, turn my heart around instead baby
Nobody knows me like that but what if you did?
What if you did?
