

## Letterman Jacket

eleventyseven

I told you I would come for you  
I pulled you out of heaven too  
I know you're not that into labels  
But I broke all that I promised you  
Cause that promise broke me too  
But I don't miss the cool kid's table

Oh I've tried making it home  
But I drunk drive every wheel  
I find myself behind  
I find myself behind  
And I wear my heart on my habit  
This scarlet letterman jacket  
Is worn enough for two  
From all that we've been through

I wonder around the house at night  
Too scared to sleep cause I  
Can't shake this dream I'm having lately that we  
Bleed out before the medics show  
Float up to find the gates are closed  
You turn away and say you blame me

Oh I've tried making it home  
But I drunk drive every wheel  
I find myself behind  
I find myself behind  
And I wear my heart on my habit  
This scarlet letterman jacket  
Is worn enough for two  
From all that we've been through

Futures turn to bucket lists  
Our seconds into sunken ships  
Our whispers are turning into screams  
Do you ever second guess  
These chains that tie you to my mess  
It runs too deep to ever clean

Oh I've tried making it home  
But I drunk drive every wheel  
I find myself behind  
I find myself behind  
And I wear my heart on my habit  
This scarlet letterman jacket  
Is worn enough for two  
From all that we've been through
