Master On The White Horse

Elgibbor

Mighty Master on a white horse His feet like steel crush death The Fire in His eyes Touches our hearts The sword from His mouth Cuts down the enemy His voice is like rushing water That crushes the tower of evil He rose from the dead And set me free from sin He took my feet out of the miry mud And stood them on the solid rock He gives his angels charge over me In His blood was my ransom His word is life My Lord and Savior is the Victor!!!
