

I know what to do with it
I know what to do with it

Maybe I should pull up, just answer your phone
Unlock the door if nobodies home
I been thinkin' 'bout it all day, yeah you know
Ooo, let's take it slow, let's take it slow, ay yeah
Cause I know what to do with it
Tonight there is no limits, no no, no no
Come and relax your mind
Said I ain't gonna waste no time, no

I been waitin for so long to get you all alone
Now I finally got you right here
So baby I'm a lock my door and disconnect my phone
Cause I wanna make one thing clear
I want you on top, so let your hair down
I took the night off for you
Girl I'm gonna turn the lights off
But keep your heels on
They're fittin' for what we're about to do

I know what to do with it
I know what to do with it
I know what to do with it

Oh yeah, it's our time
Ooo, girl you're mine, oh yeah
I know what to do with it
