

Easier To Hate You

ELHAE

At times I hate you
You're not the same you
Don't care what they do
Still I remain true

Do you still feel the same way?
'Cause I've been seeing change, oh, I know
That it's easier to hate you sometimes

I know this feeling's a drug
The way we fight then make love sometimes
I know you want what you want
But I don't know what you want sometimes
I need to feel what you feel
You treat me unreal and I love you still

That's why it's easier to hate you sometimes
That's why it's easier to hate you sometimes
That's why it's easier to hate you

Some things are complicated
I have a lot to lose in my life
But I wish you're not the same
Reckless feelings put us at risk
It is easier to hate you

You just make me feel surreal
Don't wanna wake up, in this dream
Sometimes, sometimes

That it's easier to hate you sometimes
That it's easier to hate you sometimes
That it's easier to hate you
