

Turn the lights on

Hennessy all in my system  
Hennessy all in my system  
Mix it with the champagne  
Mix it with the champagne  
Add some smoke and it's killing me  
I've got no wisdom  
Hennessy in my system

Who did what to who?  
Who was kissing, who was touching you?  
Heard you was flirting with another guy  
You must be out your mind if you think I'd let that fly  
You said that we broke up but I don't think it's broke  
Got no problem acting up, you've seen me do this before  
Especially when I got that...

Hennessy all in my system  
Hennessy all in my system  
Mix it with the champagne  
Mix it with the champagne  
Add some smoke and it's killing me  
I've got no wisdom  
Hennessy in my system

I just wanna kiss you madly  
Can't lie, girl, I miss you badly  
Take me back to the days you had me  
Only wanna see you happy  
Especially when you happy with me  
Oh-oh, these drinks are talking so much right now, girl  
They're speaking loud, girl  
Why'd I go and put that

Hennessy all in my system (Yeah)  
Hennessy all in my system (Yeah yeah, yeah)  
Mix it with the champagne (Oh)  
Mix it with the champagne (Yeah)  
Add some smoke and it's killing me  
I've got no wisdom  
Hennessy in my system

Hennessy all in my system  
He-hennessy all in my system  
Mix it with the champagne  
Mix it with the champagne  
Add some smoke and it's killing me  
I've got no wisdom

Who did what to who?  
Who was kissing, who was touching you?  
Heard you was flirting with another guy  
You must be out your mind if you think I'd let that fly

What's up?  
Hey, where you at?

Got caught up a lil' bit but I'm on the way, be there in a second  
Well the door is unlocked
