

Yeah (Hollup!)

I got a little bit of time, I'm in town for a little  
Face down, lovin' when you bitin' on the pillow  
Fall in love with' a real one  
I meet you at the bottom when I feel somethin'  
Ain't no nigga 'bout to tell me how I feel for ya'  
Make 'em know, make 'em know that it's real for ya'  
H-Town to the A, keep it trill for ya'  
Ride for a nigga, I'mma hold the wheel for ya'  
I hold the wheel for ya', sk-sk-skrrrt  
Grab on the stick, put it in drive, let's hit 96  
I be just chillin', these niggas be hatin'  
But homie don't test me, I might take your bish  
She love it, she love it, I know that she love it  
Grab it in public and make her start blusin'  
Take her back home and start feedin' her lovin'  
I'm takin' my time, no need for the rush

And she dance, to this song  
And she dance, to this song  
And it goes, "Hey now now, watch her go down"  
Oh-ohh, oh-ohh, oh

'Bout time that we stop playin'  
Come down girl, start rainin'  
Oh well, maybe I'm faded  
Think back to my ex, yeah I upgraded  
I don't know about you, but it feels right  
You a dream come true, is this real life?  
This is chemistry, shout out to Bill Nye  
I'm a fresh young nigga, yeah I'm still tight  
Woo! On my grind gettin' money  
She chillin' beside me and gettin' it too  
That cakes' from Jamaica  
These other hoes basic, yeah ain't that the truth?  
She kissin' me, touchin'  
I might just record it when I'm in the booth  
That girl is amazing  
I swear when she do it, she know what to do

And she dance, to this song  
And she dance, to this song  
And it goes, "Hey now now, watch her go down"  
Oh-ohh, oh-ohh, oh

Is it too much for you  
When you do the things you do?  
You're so valuable to me  
Yeah-yeah, yeah-yeah  
Oh-oh, ohhh, oh-ohh
