

I.D.B.I.L.

ELHAE

I don't believe in love
I don't believe in love, yeah
No more
No more
Do you still believe in us?
Do you still believe in us?
I can't take it no more
I can't take it no more
Can you tell me why we can't seem to find a way?
See the moments you would stay with me
Just to walk away from me
Oh, tell me what, what
What are you gonna do? (What are you gonna do?)
I wanted to be with you
But I don't believe in you so

We should let it go, uh
We should, we should, yeah, yeah
We should let it go
Oh, I don't wanna believe it, ooh
We should let it go, girl, ooh whoa
We should, yeah yeah
We should let it go
I don't wanna believe it
But we should let it go

No no no no, no no
Oh yeah yeah yeah yeah, no
Uh, yeah

What did you see in us?
What did you see in us? Uh
Take me on a journey (Take me on a journey)
Of how you felt about me (How you felt)
We never had the trust
And I never gave a fuck, uh
I was somewhere different, yeah
Because you wouldn't listen
But you should let it go (Go)
We've been here before (Here before)
We've been comfortable (Been comfortable)
You're not happy no more, whoa
All the signs are right there, so yeah, oh

We should let it go, oh yeah
I said that we should, we should, yeah
We should let it go
This right here in front of me
But I don't wanna believe it, yeah
Oh, but we should let it go
Me and you, we just ain't right, we just ain't right, yeah
So we, say we should let it go (We should let it go)
I still don't wanna believe it
But we should let it go

You have one unheard message
Yo, what's up, man? Um, I was hoping to reach you, but

More than anything I just want you to know, um
That you can't let this one person, this one situation
Hold you back from your future, from what's good for you
'Cause at the end of the day, you know, if-
if this person isn't for you, then there's someone better
And just think about that, you're in love, and there's someone better for yo
u than someone you already love, that's crazy
So, just you know hold on, man, I know it's difficult
But you'll get through it and I'll be here for you
So hit me up any time, man, aight
