

In My Corner

ELHAE

Found someone in my corner who loves me a lot
And sees the real me and not just a star

Girl let's make it known
I'll give you my name and everything that comes with it
Know you're like a diamond ring you're just so flawless
Handle you with caution
No other option

Didn't give up on love
I can't give up your love
You didn't give up on me no
So I can't give up on your love
Didn't give up on love
You didn't give up on me
We can't stop what God's created
I can say I found love

Found someone in my corner who loves me a lot
And sees the real me and not just a star
Found someone in my corner who loves me a lot
And sees the real me and not just a star

I think I love you, oh oh
Don't think of no one but you oh oh
On my mind it's all the time girl
I know you see the signs you're mine
Oh you're mine

Didn't give up on love
I can't give up your love
You didn't give up on me no
So I can't give up on your love
Didn't give up on love
You didn't give up on me
We can't stop what God's created
I can say I found love

Found someone in my corner who loves me a lot
And sees the real me and not just a star
Found someone in my corner who loves me a lot
And sees the real me and not just a star
