

## More Remix

ELHAE

(Do you want...)

Do you want more, more, more, more, more, more?

(Do you want... do you want...)

Do you want more, more, more, more, more, more?

(Do you want... do you want...)

Just because you don't ask for it don't mean you shouldn't have it  
I can't help but give you more, baby, it's a love habit (Yeah, yeah)  
He'd just take you for granted, got you wasting your magic, it's tragic

But bring your vibe and your energy to me, I bet I'll match it  
I'll give you every little thing that you been lacking

'Cause you deserve that, baby  
Somebody that's gon' love you crazy  
So whenever you're tired of waiting  
You can dial 1-800 (Yeah)

Do you want more, more, more, more, more, more?

(Do you want... do you want...)

Do you want more, more, more, more, more, more?

(Do you want... do you want...)

More, oh

They was sleep, they was sleep on you, baby  
I don't know how they missed ya, that's crazy  
I'ma pull up, don't care about the distance  
Caught that [?] put myself in position  
'Cause you need better, fuck a lame right now  
We can talk about it on a private plane right now  
All them fake friends you once gave a damn about  
Oh, I bet their punching the air right now

Put them legs up like Lamborghini doors  
Let me give you what you been looking for  
Drop that Versace right there on the floor  
Oh, do you want more

Do you want more, more, (More) more, more, (More) more, more? (More)

(Do you want... do you want...)

(Do you want more, yeah)

Do you want more, more, more, more, more, more?

(Do you want... do you want...)

(Do you need more, more  
Do you want more)
