

Otherside

ELHAE

Read about it, read about it
Read the payroll
We ain't gotta talk about it
We just lay low
In the night, in the night
You hit me late so
I'm in the Uber, on my way
I'm headin' straight for it
Look at you now, look at you now
You holdin' out
But I know you want it (Yeah)
If you wanna get down
You can get it right now
You can come to the side
Cause I know you want it (Yeah)

I've tried, I've tried, tried
For you
Thinking of things that you do
You know I've got things to do
But I'm right, but I'm right here with you (Ah)

Hear me when I say, hear me when I say
I ain't here for games, I ain't here for games
We can take a train, we can take a plane
Take it right on the other side, side, side

Yeah, no, yeah
Side, side
On the other side (Yeah)

Oh, slow it down
Take your time, take your time
We got all day and night
Oh, no
Only place I wanna be is right there on your mind
Now I'm livin' it up (Ay)
I be sure interest pull up (Ay)
You don't wanna stop now
I don't wanna stop now
I've been waitin' too long for you
Know what you been through
But I got you

I'll try for you, for you, for you
Those things you do, you do, you do
Girl you the truth, the truth, the truth
I wanna ride with you
(Hey!)

Hear me when I say, hear me when I say (When I say)
I ain't here for games, I ain't here for games
(I ain't here for games)
We can take a train, we can take a plane
(We can take a plane)
Take it right on the other side
Hear me when I say, hear me when I say (When I say)

I ain't here for games, I ain't here for games
(I ain't here for games)
We can take a train, we can take a plane
(We can take a plane)
Take it right on the other side, side, side

Side, side
