

Situations

ELHAE

Girl I, cause I loved you
You were my girl
See I, thought the world of you
But so you know

Girl I, cause I loved you
You were my girl
See I, thought the world of you
But so you know

Yeah, it's no hard feelings
Maybe so

It's the product of a heartbreak
On a rooftop while I star gaze
Pardon me while I parle
Reminisclin' on old times at the parkway
A young kid gettin' change for the arcade
Headphones in while I'm listening to Kanye
Scopin' out the girls in the hallway
Fast forward to present now we gettin' cake
I'm inside another world, tryna' find me another girl
Cause I feel the last one was from the Underworld
Ain't no dissin' but I was missin' somethin'
Said you dealin' with it, but you ain't never mentioned nothin'
I'm inside, and you mean to tell me you ain't feelin' nothin'?
Well that's a bet, you prolly ain't never goin' feel nothing
I gave you everything, and you walked away
Late night phone conversations begging you to stay

You don't have to call, baby, no, no
I'mma be alright tonight
Promise it'll be good
You don't have to call, baby, no, no
I'mma be alright tonight
Oh yeah

Situations, situations

I tried to write something different inside this notepad
Wish I could delete these memories like a program
Tired of tossin' and turnin', tired of being tired
But when you love someone you throw yourself inside the fire
Just to see if it burns, just to see if she cares
Just to see if she realizes that your love is rare
I feel the change in these last couple conversations
Like maybe you wanna be here and it's making me impatient
But still, I told myself as a man you fighting for what you want
Give her her space, it's no reason for you to try to rush
Prayin' for better days, prayin' that God protects her
Prayin' every single day He brings us back together
Look, I don't know the odds, careless 'bout gettin' even
Wakin' up in cold sweats, at the thought of her just leavin'
But the more I think about it, I'll be good without her
I ain't even really trippin'

You don't have to call, baby, no, no

I'mma be alright tonight
You don't have to call, baby, no, no
I'mma be alright tonight
Oh yeah

Situations, yeah, yeah
Situations, yeah, yeah
Situations, baby
Situations, baby

How do we get in these situations? Baby, yeah
I don't wanna
No, I don't wanna be in this no more
Sick and tired of all your games
Oh yeah, yeah
Woo

You don't have to call, baby, no, no
I'mma be alright tonight

You don't have to call, baby, no, no
I'mma be alright tonight
