

Take Care

ELHAE

I'll take care of you

I've been up you've been down
We've been here before
Yet in still you should know (I'll take care of you)
I've been wrong you've been right that's just life you know
Yet in still...

Yeah

You know that baby things change but we stay the same
I can't explain what I really feel
It's like a burning flame when I hear your name
I need. You
And it ain't no secret
When you in my corner I'm undefeated
You flip ya hair girl you so conceited
But my ego's big so I guess we even eh
The reason I'm on top of the globe
And you the reason why I don't mess with no monotonous hoes
I need a little bit of time
Wait til I get you home
It's going down soon as look at me it's on you know right
You been right there for the longest
Whenever I'm putting in work
Girl I believe that you the strongest
Forever I'm putting you first
Real talk

When you feeling down, when you hit the ground
I'll be there to lift you baby (I'll take care of you)
When you need me close, when it matters most
I'll be there right with you baby (I'll take care of you)

Girl you know I'll take care
Girl you know I'll take care
(I'll take care of you)
Girl you know I'll take care
Girl you know I'll take care
(I'll take care of you)

Riding round windows down this is what it's all about me and you let's hit t
he town
Riding round windows down this is what it's all about me and you let's hit t
he town (x2)
Yeah

I love the way the wind hit your hair
You love the way I'm gripping the wheel
A lot of girls try to compare
They claim they a 10
But you like a mil
Just keeping it real that all I can do (Do, do)
Girl you know you like the best right?
It's never no question if it was
You know I'm getting every answer on the test right
Hol up I know all about what you been through

And I already know what it is
That why I'm right here and I'm with you
I been thinking you should have my kids
Them niggas in the past don't know what they had they sleep
Dig a hole nigga 8 feet
Here's my advice you should bury yourself
We waving at you like take care of yourself my nigga

When you feeling down, when you hit the ground
I'll be there to lift you baby (I'll take care of you)
When you need me close, when it matters most
I'll be there right with you baby (I'll take care of you)

Girl you know I'll take care
Girl you know I'll take care
(I'll take care of you)
Girl you know I'll take care
Girl you know I'll take care
(I'll take care of you)
