

# AIR

Eli & Fur

I can't shake this feeling  
The walls are closing in  
This don't feel like living  
Set me free again

I guess I thought I could be without ya  
You're what I need  
When the rain keeps pouring down  
I guess I thought I'd be free without you now

You're the air I breathe  
The sunshine on my skin

You're the air I breathe  
The sunshine

I guess I thought I could be without ya  
I guess I thought I could be without ya

I can't shake this feeling  
Crawls under my skin  
This don't feel like living, anymore  
Set me free again

I guess I thought I could be without ya  
You're what I need  
When the rain keeps pouring down  
I guess I thought I'd be free without you now

You're the air I breathe  
The sunshine on my skin  
You're the air I breathe  
The sunshine

I guess I thought I could be without ya  
I guess I thought I could be without ya

You're the air I breathe  
The sunshine on my skin  
You're the air I breathe  
The sunshine  
I guess I thought I could be without ya  
I guess I thought I could be without ya
