Come Back Around

Eli & Fur

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?

Would you come back around?
Would you come back around?

Suddenly you pull me under
A part of me that you could never reach
Alone at night I sit and wonder
Is it as good as it could ever be?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?
Would you come back around?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?

Would you come back around?

Suddenly you pull me under
A part of me that you could never reach
Alone at night I sit and wonder
Is it as good as it could ever be?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?
Would you come back around?

Are you thinking of me now?
Would you come back around?
And if I can't be found
Would you come back around?

Suddenly you pull me under
A part of me that you could never reach
And if I can't be found
Would you come back around?
