

Insomnia

Eli & Fur

I can see
Wild angels on my mind
My heart beats
To a rhythm out of time
Only, only angels like you save me
I take care of you and all you do is shame me

(I need you here right now)
I can't sleep no more insomnia
I can't sleep no more
(You never bring me down)
I can't sleep no more insomnia
I can't sleep no more

(No matter what you do)
I can't sleep no more insomnia
I can't sleep no more
(I'll take care of you)
I can't sleep no more insomnia
I can't sleep no more

I can't sleep no more insomnia
I can't sleep no more
I can't sleep no more insomnia
I can't sleep no more...

Cut you out
Close my lips and make me breath
Make me numb
So I fall back to my knees
Only, only angels like you save me
I take care of you and all you do is shame me

(I need you here right now)
I can't sleep no more insomnia
I can't sleep no more
(You never bring me down)
I can't sleep no more insomnia
I can't sleep no more

(No matter what you do)
I can't sleep no more insomnia
I can't sleep no more
(I'll take care of you)
I can't sleep no more insomnia
I can't sleep no more

I can't sleep no more insomnia
I can't sleep no more
I can't sleep no more insomnia
I can't sleep no more...

(I need you here right now)
I can't sleep no more insomnia
I can't sleep no more
(You never bring me down)
I can't sleep no more insomnia

I can't sleep no more

(No matter what you do)

I can't sleep no more insomnia

I can't sleep no more

(I'll take care of you)

I can't sleep no more insomnia

I can't sleep no more
