

# It Feels Different Now

Eli & Fur

Time  
Gave us hope  
Remember how we lost control  
Ahhh  
I feel something though it's over, fire  
Ahhh  
It feels different now we're closer, higher  
It feels different now we're closer, higher

Time  
Gave us space  
Sweet Surrender, lead us to the tides of change  
And back again  
There's still heat when we move closer, fire

Ahhh  
But it feels different now we're closer, higher  
Ahhh  
It feels different now we're closer, higher
