

Love Again

Eli & Fur

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

You've got light in your soul
Let it shine let it grow
See how high we can go
See how high we can go
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again
To love again

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

You've got light in your soul
Let it shine let it grow
See how high we can go
See how high we can go
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again

Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

You've got light in your soul
Let it shine let it grow
See how high we can go
See how high we can go
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the
I just get the feeling
I just get the feeling
I just get the feeling
I just get the feeling we are starting
To love again

To love again

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

I just get the feeling we are starting
To love again
Feel like we are only getting started
I just get the feeling we are starting
To love again
Feel like we are only getting started

You've got light in your soul
Let it shine let it grow
See how high we can go
See how high we can go
I just get the feeling we are starting
To love again
Feel like we are only getting started
