

# Make Believe

Eli & Fur

Drift like smoke through open doors  
Flickering light is on me  
Shadows falling in my head  
Unraveling slow and thread by thread

And would you walk away?  
Another morning fades and I  
I count my blessings, change  
And never turn to say...

Is it make believe, when you're next to me  
Is it make believe?  
When you fall asleep, secrets that you keep  
Is it what you need?

Creep like vines  
On broken stone  
Shimmering light  
Surrounds me  
Footsteps echo  
Out of time  
A distant hum  
A warning sign

And would you walk away?  
Another morning fades and I  
I count my blessings, change  
And never turn to say...

Oh pushing a light on a wave  
Guess I fall a bit deeper  
Echo it of my brain  
Cos I'm falling in deeper

Is it make believe, when you're next to me  
Is it make believe?  
When you fall asleep, secrets that you keep  
Is it what you need?

Is it make believe, when you're next to me  
Is it make believe?  
When you fall asleep, secrets that you keep  
Is it what you need?
