

# Monsters

Eli & Fur

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone

The feeling never lasts long  
It's a feeling that I've outgrown  
It can't see me with the lights on  
Catch a glimpse of my shadow

The feeling never lasts long  
It's a feeling I can't outrun  
It can't see me with the lights on  
Catch a glimpse of my shadow

Lights going off  
And I wish they would come on  
Lights going off  
And I wish the sun would come up  
Lights going off and I wish I could come  
Away with away with, away away away with you

Lights going off  
And I wish they would come on  
Lights going off  
And I wish the sun would come up  
Lights going off and I wish I could come  
Away with away with, away away away with you

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone

Lights going off  
And I wish they would come on  
Lights going off  
And I wish the sun would come up  
Lights going off and I wish I could come  
Away with away with, away away away with you

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone

Lights going off

And I wish they would come on  
Lights going off  
And I wish the sun would come up  
Lights going off and I wish I could come  
Away with away with, away away away with you

I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone  
I can't fight these monsters alone
