

# My Shadow

Eli & Fur

We don't need to hide it anymore  
We've said it all  
More than enough

Looking at the writings on the wall  
We came so close  
But you let me fall

These white lies  
What goes around, comes back around  
I hope you know this  
It takes time  
And I've been down da down  
But I ain't giving up

And I've been leaving teardrops on the floor  
My heart breaks through the silence, it goes  
Da da da da, da da da da  
But I just keep dancing with my shadow

My shadow

But I just keep dancing with my shadow

Glitter in my eyes and round the room  
Caught in the dark  
When I think of you

Hard cause you were everything I knew  
But people change  
They always do

These white lies  
What goes around, comes back around  
I hope you know this  
It takes time  
And I've been down da down  
But I ain't giving up

And I've been leaving teardrops on the floor  
My heart breaks through the silence, it goes  
Da da da da, da da da da  
But I just keep dancing with my shadow

My shadow

I just keep dancing with my shadow

Dancing with my  
My shadow

And I've been leaving teardrops on the floor  
My heart breaks through the silence, it goes  
Da da da da, da da da da  
But I just keep dancing with my shadow

My shadow

But I just keep dancing with my shadow  
I've been leaving teardrops on the floor  
My heart breaks through the silence, it goes  
Da da da da, da da da da  
But I just keep dancing with my shadow
