

# Something Was Real

Eli & Fur

I promise you nothing, so I'll take it all  
I don't play the fool, sleight of hand  
I never believed, I know that you'll understand  
You'll understand

I'm on my way home, I left you there waiting  
There's no way out, we'll just get messed up again  
When all the walls are coming down, I know  
So I'll just, before you're leaving more, I'll go

Did I say too much?  
Thought I'd never fear  
But now it's come so clear  
Why'd you bring me here?  
Hard to feel  
I don't belong  
But know that something was real  
Something was real

I'm on my way home, I left you there waiting  
There's no way out, we'll just get messed up again  
When all the walls are coming down, I know  
So I'll just, before you're leaving more, I'll go
