

Champagne

Eli Lieb

If I were a diamond
I'd be wrapped round your finger
If I were a hero
I would fight for your life
But I'm shadow boxing
My own reflection
Lost in a moment
Left you nothing at all

Held you down
Just to let you know
Tied you up
Just to let you go

If this is the end to saying goodbye
Could we pretend for just one night
That we had it all, champagne on ice
 Fucked up and drinking down this lie
Champagne lies
Champagne lies
We had it all, champagne on ice
 Fucked up and drinking down this lie

Lived out the lifestyles
Of the rich and famous
I've lived out my demons
Left me nothing at all

Held me down
Just to let me know
Tied me up
Just to let me go

If this is the end to saying goodbye
Could we pretend for just one night
That we had it all, champagne on ice
 Fucked up and drinking down this lie
Champagne lies
Champagne lies
We had it all, champagne on ice
 Fucked up and drinking down this lie

When you can't find the real thing
I'll be your ghost
With another glass of champagne
Maybe this is how it goes
Baby, this is how it goes
Oh
Oh

If this is the end to saying goodbye
Could we pretend for just one night
That we had it all, champagne on ice
 Fucked up and drinking down this lie
Champagne lies
Champagne lies
We had it all, champagne on ice

Fucked up and drinking down this lie
