Fall for You

Eli Lieb

I remember when we met drunk outside of that bar
Singing to Journeys lonely world
The street lights were up all night for you and I
You told me you could find my hand in the dark
Just by seeing my blue eyes
You swore I'd never want your love to say goodbye
Well fast forward months and you're gone gone gone
All of the love we had gone gone gone gone

All of the times that we broke up I'd do it all again
And all of the ways that we made up I'd do them all again
There's no avoiding this I'll close my eyes and just pretend
I always wanted more I never could just be your friend
All of the times that I've fallen I'd fall for you again
I'd fall for you
I'd fall for you again

I remember when you told me love was touching souls
Well you touched mine
But now I know that's just some old Joni Mitchell line
Always trying to find your hand in the dark
It felt like we were worlds apart
And the space between pushing us to separate lives
Well fast forward months and you're gone gone gone
All of the love we had gone gone gone gone

All of the times that we broke up I'd do it all again
And all of the ways that we made up I'd do them all again
There's no avoiding this I'll close my eyes and just pretend
I always wanted more I never could just be your friend
All of the times that I've fallen I'd fall for you again
I'd fall for you
I'd fall for you again
I'd fall for you
I'd fall for you again
I'd fall for you
I'd fall for you again
I'd fall for you
I'd fall for you
I'd fall for you

All of the times that we broke up I'd do it all again
And all of the ways that we made up I'd do them all again
There's no avoiding this I'll close my eyes and just pretend
I always wanted more I never could just be your friend
All of the times that I've fallen I'd fall for you again
I'd fall for you
I'd fall for you again
I'd fall for you
I'd fall for you again
I'd fall for you
I'd fall for you
