

# Found

Eli Lieb

Feet off the ground  
And my head in the cloud  
Waiting for someone  
To bring me down

Clock on the wall  
Ticking around  
Waiting for no one  
To say that they've found

And time waits for no one  
And time is on my side

All of my life I've been waiting around  
Waiting for someone  
But I'm the one I've found  
Everything now  
comes easy to me  
waiting for no one  
Now that I've found me

My head in the air  
And my gaze straight ahead  
Looking down my road  
That I've paved ahead

Clouds rolling in  
And the sun goes down  
But baby a new day  
With it comes around

And time waits for no one  
And time is on my side

All of my life I've been waiting around  
Waiting for someone  
But I'm the one I've found  
Everything now  
comes easy to me  
waiting for no one  
Now that I've found me

All of my life I've been waiting around  
Waiting for someone  
But I'm the one I've found  
Everything now  
comes easy to me  
waiting for no one  
Now that I've found me  
Now that I've found me  
Now that I've found me  
Now that I've found me
