

# Look Away

Eli Lieb

I'll never touch your body again  
We gave it our all, but this is the end  
So we say that we tried  
Watching you fade, I know it's goodbye

But I can't look away from you  
I can't look away  
I'm trying to face the truth  
from the mess that we made  
So we say that we tried  
But I can't look away from you  
I can't look away

I miss watching you sleep  
You scent on my sheets  
Such a bitter-sweet, beautiful mind  
haunting my dreams  
So I know you'll be fine, say "it's alright"  
Watching you fade, cause this is goodbye

But I can't look away from you  
I can't look away  
I'm trying to face the truth  
from the mess that we made  
So we say that we tried  
But I can't look away from you  
I can't look away

I'll be okay, are you okay?  
Thinkin' about the way that we left this  
Will I grow to regret it  
Watching you fade  
I know it's goodbye

But I can't look away from you  
I can't look away  
I'm trying to face the truth  
from the mess that we made  
So we say that we tried  
But I can't look away from you  
I can't look away
