

# Make It Through

Eli Lieb

Holding your hand I was taken  
I swear I never knew love like this  
Suddenly you changed threw it all away  
Left me unraveling at the seams

Push me to the ground  
You're never gonna break me down

I'll be fine on my own  
When the hurt goes away  
How could you let me go  
After all that you said  
And I know I'll find a better one than you  
And I want you to know  
I'm gonna make it through

Waited hours I was pacing  
Now I know you never were there for me  
Suddenly I changed stopped my waiting  
Left you took everything you gave with me

Push me to the ground  
You're never gonna break me down

I'll be fine on my own  
When the hurt goes away  
How could you let me go  
After all that you said  
And I know I'll find a better one than you  
And I want you to know  
I'm gonna make it through

And all of the lies and all that you said to me  
Throw them away get out of the way from me  
The further I run and the higher I climb  
The closer I get to the other side  
Im packing my things leaving tonight  
You're never gonna break me down this time

I'll be fine on my own  
When the hurt goes away  
How could you let me go  
After all that you said  
And I know I'll find a better one than you  
And I want you to know  
I'm gonna make it through x2

I'm gonna make it through  
Make it through  
And I know I'll find a better one than you  
And I want you to know  
I'm gonna make it through
