

One in a Million

Eli Lieb

It doesn't matter who I love or how I give my love
It's that I love
It doesn't matter where you hide, I'll find you every time
Every time

Your daddy told you always do the right thing
All it takes is one step to change a life
Even in the dark all you need is one spark
Shoot your golden arrow into the night

Give me one in a million
That's all the chance I need
If all the roads have been driven
I'll dive into the deep
And I'll break through the fire
Like a caged bird set free
Give me one in a million
That's all the chance I need

So go and build yourself a barricade
I will go and find another way
I'll find a way
Nothing you could do to hide my love
Go ahead and try, it's not enough
It's not enough

Your daddy told you always do the right thing
All it take is one step to change a life
Even in the dark all you need is one spark
Shoot your golden arrow into the night

Give me one in a million
That's all the chance I need
If all the roads have been driven
I'll dive into the deep
And I'll break through the fire
Like a caged bird set free
Give me one in a million
That's all the chance I need

Give me one in a million
That's all the chance I need
If all the roads have been driven
I'll dive into the deep
And I'll break through the fire
Like a caged bird set free
Give me one in a million
That's all the chance I need
Give me one in a million
That's all the chance I need
